

CALL FOR PAPERS

SESSION TITLE:

Instrumentation and Control

Topical Conference: Pilot Plant Centennial Celebration

AIChE Fall National Meeting

November 16-21, 2008 Philadelphia, PA

Instrumentation and control are critical elements of a pilot program which may impact implementation speed, staffing levels, data accuracy and retrieval, unit operational stability, as well as health, safety, and environment. In celebration of 100 years of AIChE and recognition of the importance of instrumentation and control in process development, this session is devoted to best practices, case studies, and historical evolution of instrumentation and control in pilot plants. You are invited to share your experiences with Instrumentation and Control in the following suggested (but not exclusive) areas of interest:

- Bench scale units
- Laboratory units
- Pilot plants
- Demonstration scale units
- Small-scale commercial and semi-works plants

Please submit your abstract by [May 11, 2008](#) at www.aiche.org, or to:

Chair : David Edwards
